

Joseph Korman

Data Analyst | [View My LinkedIn](#) | [View My Portfolio](#)

EDUCATION:

Binghamton University, State University of New York, School of Management

Master of Business Administration, Concentrations in Business Analytics and Marketing

Binghamton, NY

Expected Graduation: May 2026

Binghamton University, State University of New York, Harpur College of Arts and Sciences

Bachelor of Arts and Cinema Production

Binghamton, NY

Graduation: May 2025

Cumulative GPA: 3.75/4.00 | Major GPA: 3.87/4.00 | Dean's List: All Eligible Semesters

PROFESSIONAL EXPERIENCE:

Lead Video Production Marketing Analyst

Harpur Edge

Binghamton, NY

August 2024 – Present

- Facilitate strategic planning sessions with the video and marketing teams, providing detailed project outlines and progress reports, improved team communication and alignment on key priorities for 15+ marketing initiatives
- Increase student engagement by creating 50+ promotional videos highlighting career services and campus events, driving a strong increase in appointment bookings and student resource awareness

Real Estate Data Analyst

Snow Data Science

Remote

January 2026 – March 2026

- Cleaned, joined, and segmented over 70,000 rows of real estate data using Excel, Tableau, and SQL, analyzing trends such as regional price differences, the impact of economic shock periods on property values, and pricing patterns across market segments
- Collaborated with a capable analytics team to define open-ended business questions, translate them into analytical frameworks, and communicate findings clearly to non-technical coworkers and stakeholders via visualization and graphical depictions of findings
- Ensured accuracy and consistency across historical sale records and property attributes to improve future real estate marketing efficiency

Assistant Data Analyst

Binghamton University School of Management

Binghamton, NY

August 2025 – April 2025

- Monitored layoff trackers to identify potential AI or automation-level layoffs by compiling statements in Word documents and maintaining a shared Excel spreadsheet to ensure consistency, cleanliness and completeness of data
- Determined that larger scale companies like Amazon, Meta, Google, etc. tend to have more AI-driven layoffs than smaller companies, while the smaller companies tend to lay people off for reasons other than the influence of AI
- Located and saved hundreds of executive communications and record case details such as company name, date, sector, number of affected employees, and source of information to enable a more in-depth analysis of each record

Content and Marketing Analyst

Jomboy Media

New York, NY

May 2025 – August 2025

- Researched marketing topics and supported the content and production teams by analyzing engagement metrics to improve content effectiveness and reach by over 20% over three months
- Developed creative content strategies through the repurposing of past content for increased audience publicity and engagement, aligning marketing initiatives and data-driven insights with the company's mission

DATA ANALYTICS PROJECTS:

SQL Healthcare Project: Leveraged SQL to analyze over 100,000 patient records to help create \$100K+ in cost savings while maintaining care quality and equity for patients of all demographics and backgrounds

Marketing Project: Analyzed over 85,000 rows of coffee customer behavioral marketing data in Excel using XLOOKUPS, Pivot Tables, RFM Analysis, segmentation, and data visualizations to determine how to approach future marketing campaigns

Python Interactive Dashboard: Developed an interactive dashboard using *Python* and *Streamlit* to analyze MLB pitcher Sandy Alcantara's performance over the past five seasons, identifying statistical patterns and potential factors contributing to his decline in the 2025 season.

R Statistical Analysis: Implemented statistics and machine learning techniques such as variable correlation, hypothesis testing and linear regression to investigate a potential gender discrimination suit in health insurance pricing.

Tableau Resume Dashboard: Designed an interactive Tableau dashboard to visually showcase my professional experience, skills, and achievements across data analytics, business intelligence, and data visualization

TECHNICAL SKILLS

Data Analytics: Databricks, Microsoft Excel, Python, R, SQL, Data Visualization (Tableau, Power BI), Cursor, SPSS

AI Assistance: Databricks' Genie, Claude Code, Cursor (Vibe Coding), GitHub Copilot (VS Code), ChatGPT

Techniques: Linear Regression, Logistic Regression, Segmentation, RFM Analysis, Data Visualization, Hypothesis Testing, Experiments

Certifications: Tableau Analytics from DCJ, Advanced SQL from DCJ, Excel Certificate from DCJ, AI Python with *DeepLearning.AI*
